AS4142.3 & EN1891 Compliant
Diameter: 11mm
Std Length: 200m
Std Breaking Force (Kgs) : 3475
Weight (g): 84p/m

This man is not working safely at height! Do NOT try this at home!

It's lucky for him he's wearing his safety helmet!

WorkRight Lanyard - August Featured Product

In many work situations at height, a double lanyard is required. This is to enable a worker to bypass obstructions or to climb/move while maintaining at least one point of contact at all times.

The WorkRight lanyard has proven shock absorbing capabilities ...

It has survived multiple, repetitive falls under real conditions with a live person.

Re-usable, robust, limits fall distance / ground clearance required.

This innovative new design lanyard has evolved based on industry need for a safe, user friendly, cost effective solution for personnel working at height.

WorkRIGHT
